" To the inhabitation of y^e Town of Biddeford to be communicated to them at y^e next Town Meeting by the Gentlemen of the Committee constituted to receive my answer to the call I have received from them.- "

" Gentlemen three or 4 months ago you were pleased att a Town Meeting to invite me to amongst you as your Pastor or Minister, & lately at another Town Meeting you ratified y^e sd call, for which I have already & do now return you my hearty thanks; And as I understand that the majority, & indeed a great majority of you are desirous of my being settled amongst you in the work of y^e Ministry.

So accordingly I except your invitation upon y^e conditions following or upon conditions Equivalent with them; "

(over)

1730.

(Rev. Samuel Willard's Letter of acceptance
in the Gospel Ministry, August 3. 1730. continued)

First- " That y^e house you build be a convenient commodious house, such as is suitable to a Minister to live in, and of y^e same dimensions that most Parsonages houses are."

Secondly- " That you will always repair the house whenever it stands in need of reparation at your own charge."

Thirdly- " That you will always maintain at your own charge the fence that may be necessary to inclose y^e Parsonage ground, both which are always done by the respective Parishes where such house and lands are:

Fourthly-

That yo will grant me some tract of land or money to purchase it for myself & assigns to be wholly mine & theirs; & I think also this is very reasonable, for every Minister is doubtless as desirous as any other man to leave something of his own in case he sees meet to change a single state for y^e other, to be passed by his Relict or any Heir, Heirs or Assigns;

(up)

1730.

(Continued)

Fifthly- That you will not contract or lessen five pounds of my salary-- This also I conceive to be reasonable, for you gave five pounds to me hitherto and I suppose to the other Candidates that were my Predecessors. pr Annum, on purpose to find them an horse, and now because I have bought an horse is it altogether consistant with Equity to take away that sum, for I suppose my horse will eat as much as any man's else commonly speaking; and consequently he will stand in need of five pounds worth of keeping pr Annum as well as any other mans. "

Sixthly- " That if God in his holy Providence should be good to exercise me with a continued sickness or pain or loss of the free use of my reason & understanding so as to disable me from carying, preaching, and prayr in the house of God, I may notwithstanding have my support continued to me by you during my continuance in this Town in the Pastorall office; This allso seems to me very reasonable, for if I spend myself and am spent amongst you, ought I not to be considered in al circumstances.

Thus Gen^{tn} you see the conditions of my acceptance of y^e invitation; thus you see how affirmative my answer is, as I have told you. "

(over)

1730.

(Continued)

I defer nothing but what I & any impartial person would think reasonable, Augurs Prayr neither poverty and riches but food & Raiment convenient for me hereupon.

I hope God Almighty will succeed my labors amongst you, that both you and I may have joy and comfort here and hereafter; together I pray God that you may all be happy in this world, but especially in y^e world to come.

I am Gentlemen your sincere friend and humble serv't.

To be communicated to the inhabitants of the

day. 15th of March-

1731.

(Letter of Rev. Samuel Willard)

To the

Inhabitants of the Town of Biddiford)

Gentlemen,

You may remember that you past a vote to bueld
me a Parsonage House according to the Dimensions of
& as well finished as that wherein the Rev'd Mr
Goffards of Wells liv't & also as much fence as it
should be rationally thought I should stand in need
of & that you would maintain & repair them at your
own charge whenever they may stand in need of
reparation-

I have understood that some persons have intimated, if not said in express terms that the doing all these would bring too heavy a charge upon you-

Now Gentlemen if you are Willing to come in to my proposal, you will find it likely to ease you in a great Measure of what some may think too great a burden, & if it be satisfactory to you, it shall be so to me-

My proposal is this, that if you will give me two hundred pounds wholly and solely for myself I will quit the Town forever of building and of repairing what has been passed in a Town vote here;

(over)

1731.

(Rev. Samuel Willard's Letter continued)

This will be a great Ease to you and a comfort & satisfaction to me, especially since I have seen meet to change the single for a married state; for no doubt a Minister has as great a love & affection for his wife as any other man; and is as willing & desirous to make some provision for her (tho it be but small) as any other man for his wife; and this I may say in respect to myself, else with what the Apostle says may be applied to me;

If any man provides not for his own especially
for those of his own house he hath denied the faith
& is worse than an Infidel-

Gentlemen,

I wish all things may be done decently & in
order by you this day as well as at all times & that
you may avoid all heat and railery & indecent expressions,
and study and Peace according to the character
of true Christians-

I am Gentlemen your affectionate
Pastor and humble servant.
